Lospon, September 6.-The Mark Lane Express, in its review of the British grain trade of the past week, says: The rainfall of the week has done no barm to crops. In the earlier districts cured, and where the crop had not been reaped strong winds counter-acted the wet. The change in the weather will retard the appearance in the market of new wheats, and will also be an important factor in de termining values. The sales of English wheat during the week were 29, 892 quarters, at 33s 1d, against 39,709 quarters, at 32s 4d, during the corre-sponding period last year. Foreign wheats are steady, but with little doing. Pifteen cargoes of wheat arrived. Three cargoes were withdrawn and fourteen remained, including four of
